## \$2.6 billion of Debtor & Non-Debtor cash confirmed to date

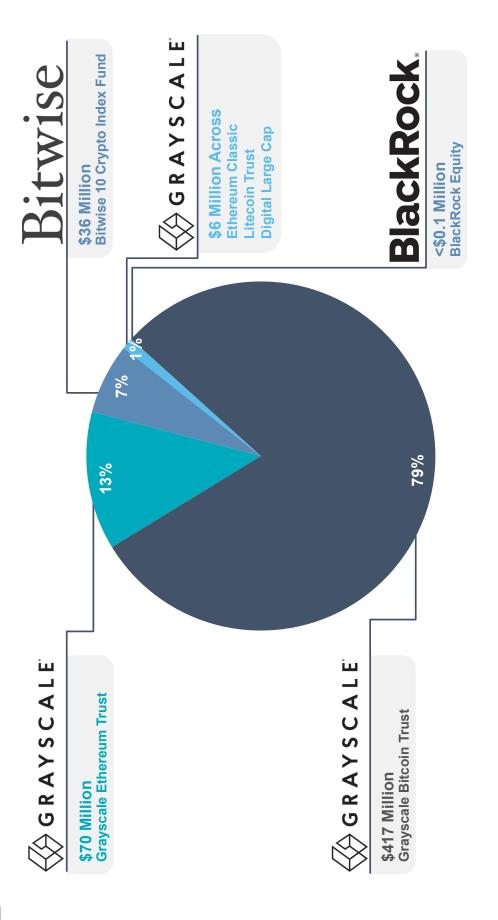

The Debtors have secured cash throughout the Chapter 11 process, within a postpetition cash management system.

- The Debtors navigated the Q1 2023 financial banking turmoil and secured fiat from over 30 separate banking institutions globally
- Unrestricted cash has increased primarily due to venture investment monetization and stablecoin conversions Cash has been located and pooled within a Master account for purposes of safeguarding estate assets.

**Token Investments** 

# \$506 million in funded amounts in remaining token investments

The Debtors are contractual counterparties in agreements in which tokens have been or are being delivered on a vesting schedule

- Post-ICO tokens are vesting and are deemed less risky and, when received, become assets in the Debtors' Digital Asset portfolio
- Pre-ICO tokens are early-stage tokens that are deemed riskier as they have not been minted and therefore their value is uncertain

Preference Exposure: Computation of each customer preference exposure using the main account ID taking into consideration a new value defense using a subsequent advance methodology for two periods: (a) the Preference Period; and (b) 15 days prior to the Petition Date (which captures when CoinDesk broke the news on potential insolvency on November 2, 2022 and the Binance LOI announcement on November 8, 2022) as follows:

- Deposits (i.e., new value) and withdrawals (i.e., possible preference exposure) are reviewed chronologically
- Under this approach, subsequent deposits made by the customer are available to offset previous withdrawals ("New zero (i.e., the excess is not applied against subsequent withdrawals) and the analysis begins again until the Petition Value Defense"). To the extent deposits exceed the value of earlier withdrawals, the preference balance goes to Date to determine whether preference exposure remains ("**Subsequent Advance Methodology**")
- Interexchange deposits/withdrawals between the FTX.US and FTX.COM exchanges are excluded from the analysis
- Deposits are priced using transaction time pricing; withdrawals are priced using current pricing (8/31/2023 used for the analysis in this report)

# Stakeholder Feedback on Open Plan Issues

# The draft Plan does not purport to resolve certain open questions under discussion:

Expected size of classes of claims, recovery pools & estimates of creditor recoveries

Amount of property to be given to exchange shortfall claims against general pool of assets

Decision & manner in which FTX.com exchange is sold or reorganized

Post Plan effective date claims transfer process (recovery rights token or digital assets)

Any amendments to the Plan required to confirm that are in the best interests of all creditors
